The Secretary

We are the poor community which stays in the remote village of Madambidzha location north of Louis Trichardt town and had been fallen by the tragedy of a great wind which up rooted our houses and trees and the area was declared a disaster area of which the Venda government has promised to help us now we are still not yet get the help promised

We ask you to intervene as most people have no home and are poor who can not afford to build or rebuild their homes again

We will be very much happy if our pleas does not fall on deaf eyes ears as is the case

Faithfully yours Daniel Masia
