Dear Sir/Madam

**RE: SUSPENSION OF NEGOTIATIONS**

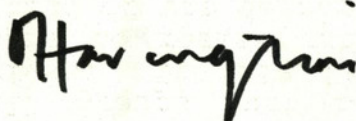

It is a matter of singular concern to me that in the aftermath of the Boipatong massacre, negotiations at CODESA have been suspended.

There are many who have had no input regarding the future government or constitution. By mass-action the ANC can do immeasurable harm to our already frail economy. Although they are attempting to force a constituent assembly and interim government into being, they remain but one group represented at CODESA.

All groups must be afforded the opportunity to air their views. If this is denied, those who were not consulted are sure to resist and do even further damage to the sensitive state of the democratic process in this country.

With kindest regards

Yours sincerely

ODILE HARINGTON
