Appeal for exclusion of Rowan Cronje

Sir

I hereby wish to state my complain regarding Mr Rowan Cronje's attendance and representation of the so-called Boph citizens at Codesa. I'm aware that invitations were made but on which grounds I know not.

Consider the above address, I'm a said to be a Boph citizen, consequently I'm represented by the Boph delegation including Rowan Cronje, at Codesa. Rowan Cronje represents no one in the Boph government because he holds no constituency. He has be forced upon as by Mr Mangope. In the Boph's scattered region I know not of his constituency, I mean even we the so-called represented Boph people at Codesa don't have an idea how he became a parliamentarian and a minister of Defence. Ask him, does he represent the army/military at Codesa or what? He should be excluded

Codesa as a legitimate body for peace-making and a formation of climate for justice should act against Rowan Cronje the intruder. Question his representation at Codesa, Whom is he representing because the Africans of the so-called ^{Bophuthatswana} do not know him. At any rate I don't condone the Boph~~o~~ delegation's illegitimacy because ~~until~~ today it doesn't serve the people that is why it is making us a laughing stock to our fellow South African by making Rowan Cronje "Mr Everything"

I hope Codesa will consider my plea because it's a known fact that freedom ^{of expression} doesn't exist in Boph. Mr Mangope and his associations (parliamentarians) have deceived our parents, so I don't wish to see people being deceived again. I appeal to Codesa II that Rowan Cronje's presence be considered and that he be excluded from Codesa's proceedings with immediate effect. If the Boph govt/delegation objects it should be suspended, after all it represents its interests but not the people's interests. Remember its refusal to hold a referendum. In fact they fear for their positions which they acquired at our expense.

Rowan Cronje is a fortune-hunter, he lives at our expense. He speaks of Britain robbing ~~us~~ ^{us} of our land but he didn't correct Mangope when he took independence that the Batswana territories were ^{before} not small and divided as they are under their government (Mangope & Rowan). Codesa must preserve its image by excluding Rowan Cronje. For fear of harassment & life, don't hand over. ^{Please} ^{read} ^{for Codesa II}
